

NCHD Hub

The NCHD Hub is a workplace health and wellbeing service for non-consultant hospital doctors (NCHDs).

We offer support with occupational health assessments to NCHDs. Our services are available to those who have an NCHD contract with the HSE or a Section 38 service.

NCHD Hub Services include:

- advice on workplace adjustment for psychological and medical issues
- disability and work advice
- work-related stress support
- fitness for work assessments
- psychological support relating to your role as an NCHD

Reasons for referral may include:

- complex ongoing medical conditions
- complex ongoing psychological conditions
- work-related stress
- work and disability advice
- long-term sickness absence unlikely to resolve before rotating to a different region or new regional occupational health service

Regional Occupational Health services will continue to provide the following assessments:

- frequent short-term sickness absence
- long-term sickness absence
- serious illness - Critical Illness Protocol (CIP)
- medical review of disclosed health issue
- health-related performance issue, accident, injury or assault at work
- occupational blood or body fluid exposure
- occupational vaccinations

How to access the NCHD Hub

You can access the NCHD Hub by self-referral or via a referral from your local Occupational Health Service, Medical Manpower, National Specialty Director (NSD) or your relevant training body.
